

BOEING 747-300 FULL-PAX

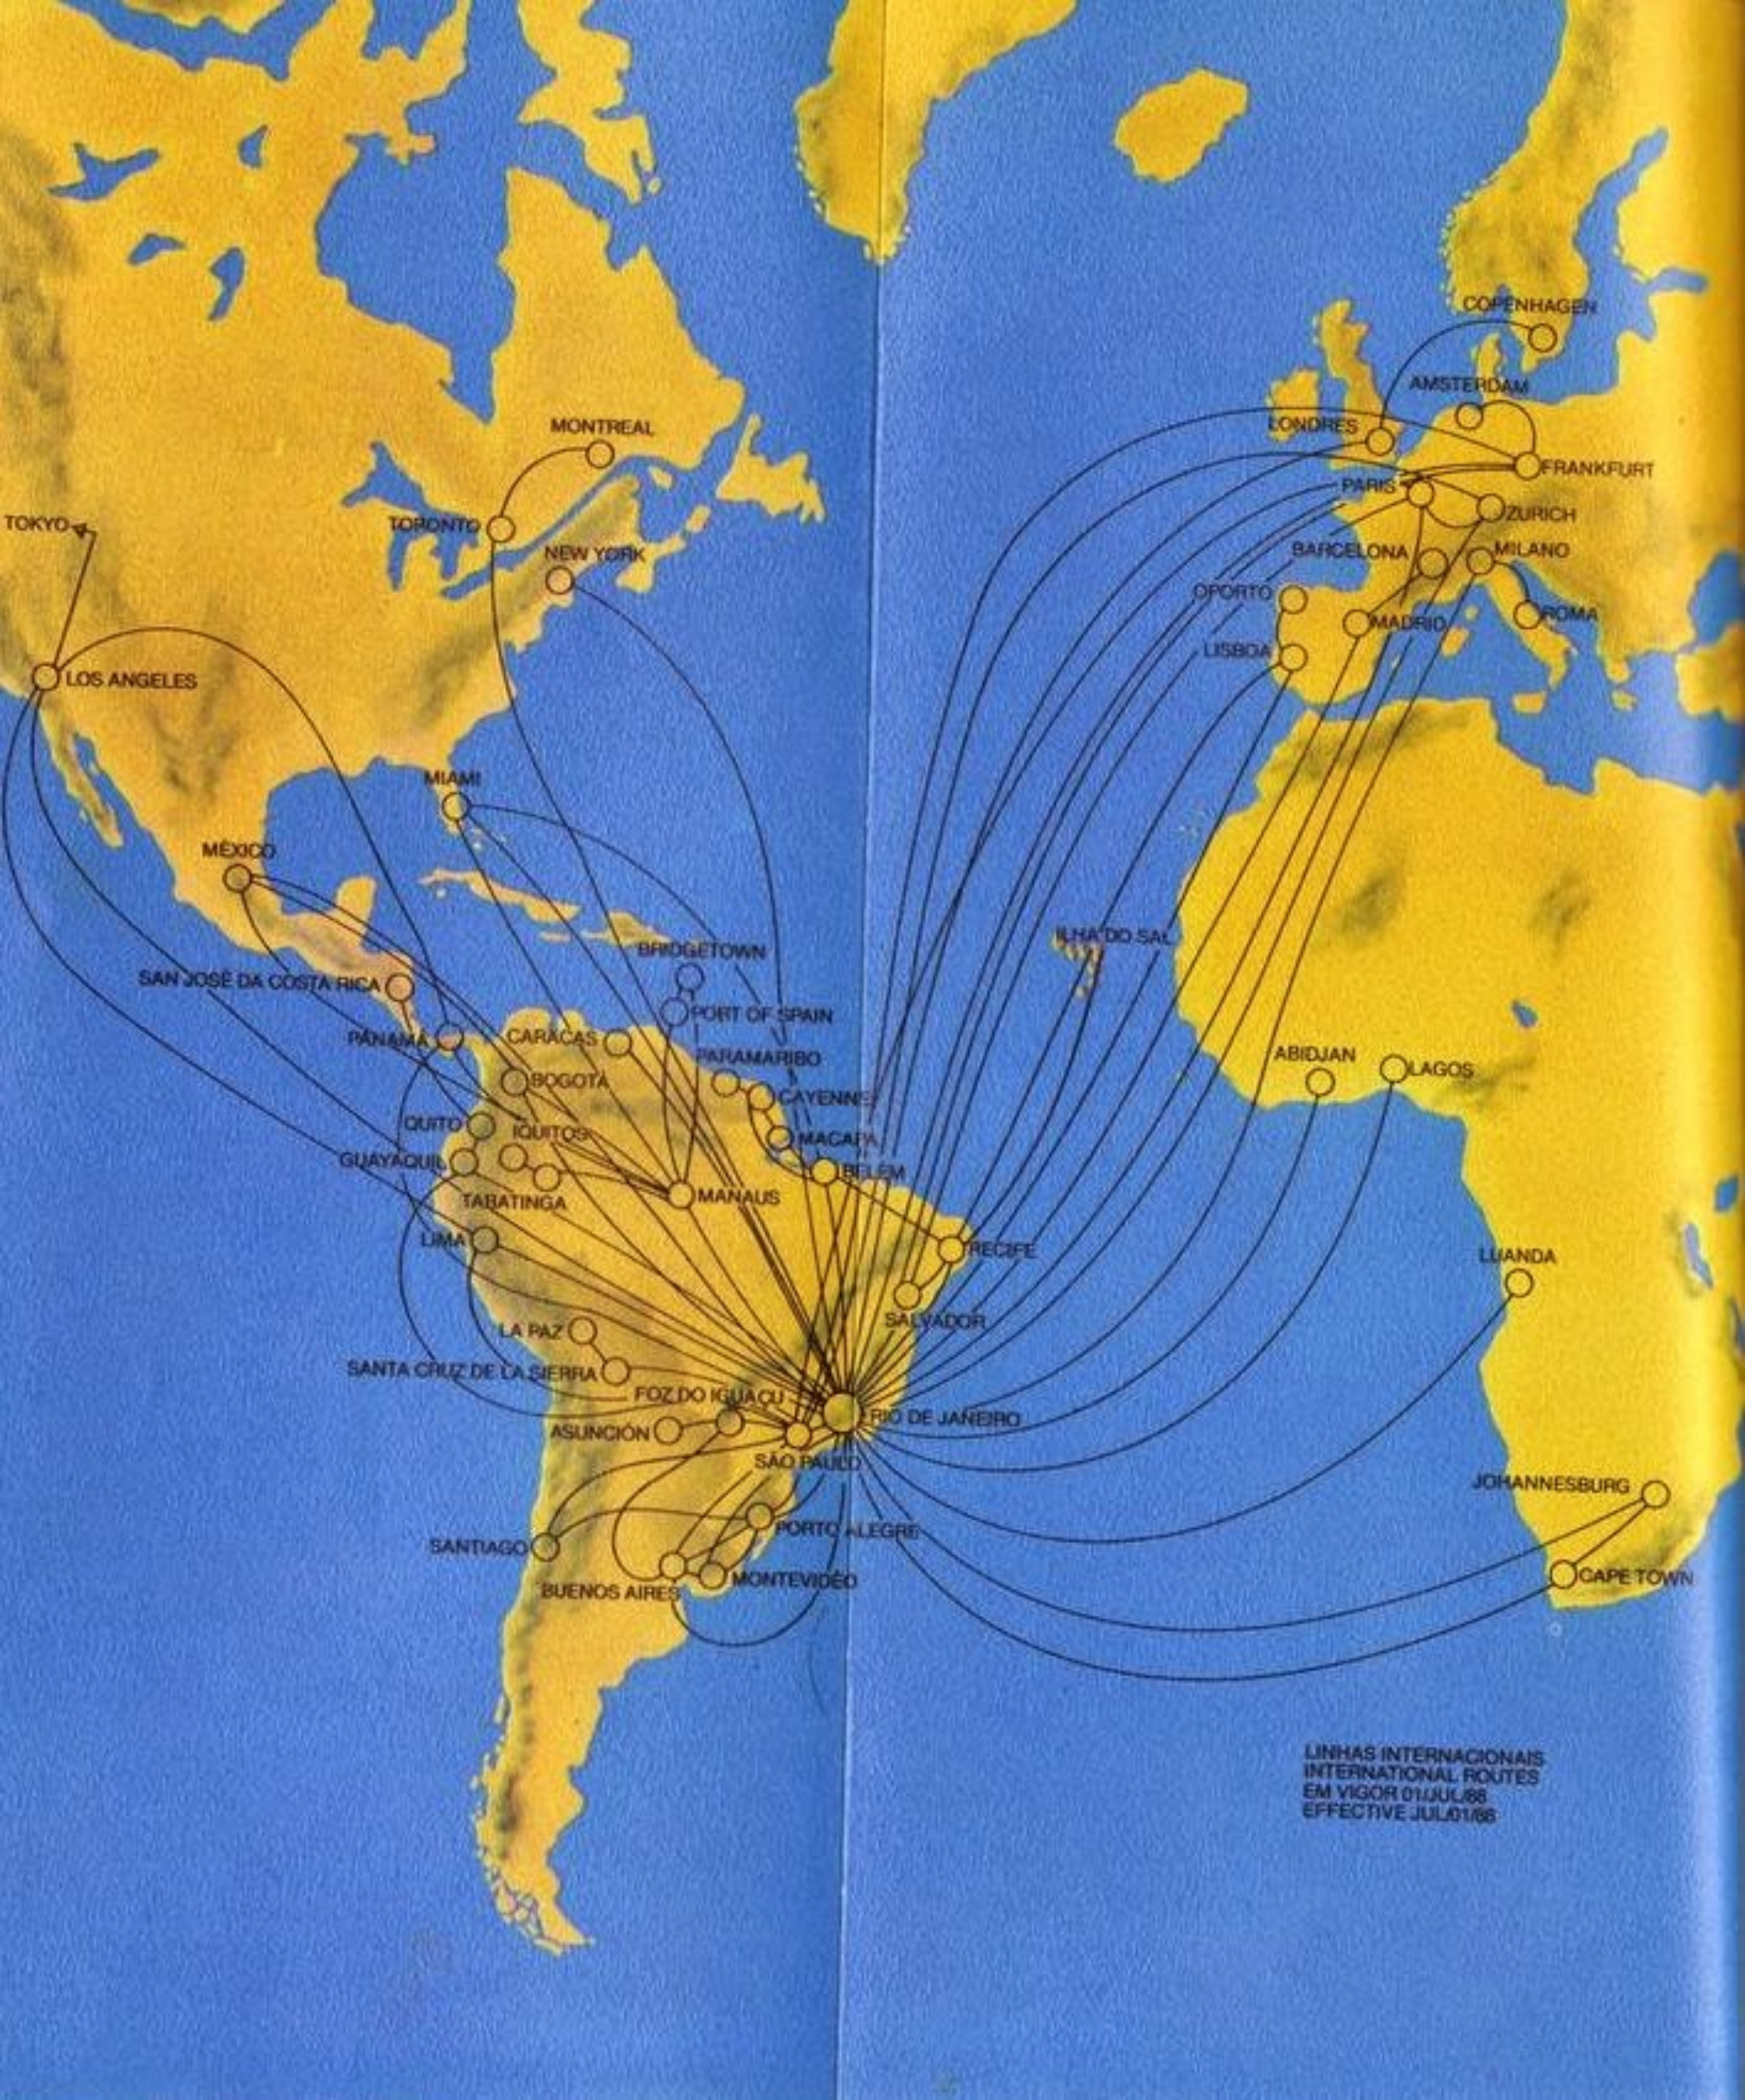

You are looking at the largest, most up-to-date Full-Pax (passengers only) aircraft in the world. It seats over 500 people, but its layout at Varig, having in mind comfort and pleasure for all, will have 408 seats, with the following distribution: 26 passengers in 1st Class, 64 in Executive Class and 318 in Economy Class.

This Boeing 747-300, the first in South America, is powered with latest generation GE CF6-80C2 turbines and will operate in Varig intercontinental lines, flying to Frankfurt, Rome, Milan, Paris, Amsterdam, London and Copenhagen.

While incorporating this modern aircraft to other large size ones of its fleet, Varig gives proof not only of its pioneering spirit, but also, of much confidence and optimism in meeting international challenge and maintaining itself among the foremost airlines in the world.
